

MARCUS GAD & TRIBE - LONG WAY HOME

Little road by the side of the ocean
Memories forever in a motion
Reef around a go stop the waves
Whatever the people say, resist and be brave
You are the island, the one paradise
Be proud of yourself no never think twice

Never sell out, no whatever the price
Say we must live up and be ready to fight
Anywhere me go man a missing you so
Never could replace never coulda borrow
Whatever me flow man a feeling you so
Could a never separate could a never let go
So man haffi let the people know
Wherever me go man I chant you so
Wherever me roam motherland you should know I love you so
Such a long way home
Still I feel the love, feel the love
Such a long way home
Still I feel the love, feel the love
Serenity feel from bottom to top
Simplicity real man no need fi talk
All along the road see the people walk
Dem a smile and wave take a time to stop
Sit upon beach and lift a cup
Of crushed up roots in a coconut
Step upon road and head up north
Man a bless up the soil and praise the Lord
Fisherman rise in the mist of dawn
Mama plow hard in the heat a de sun
Down in the fields where the yams a run
Everyone a till hard 'till the work a done
Never dream a day of a better place
Things in the world money can't afford
Must a give thanks and praise the Lord
Man a praise the Lord
Such a long way home
Still I feel the love, feel the love
Such a long way home
Still I feel the love, feel the love
