

MARCUS GAD

Native from New Caledonia's multicultural lands **Marcus Gad** embodies a spiritual musical movement between meditative roots and soul music driven by a very

singular singing technique near liturgy.

His message is fed by a powerful musical trance and refined sound with no artifice inviting to travel and reflection. Cultural ambassador of a lost island in the middle of the Pacific Ocean where nature and tribal customs are still wonderfully preserved, **Marcus Gad** reminds us of our first essence in this crisis times. More than music, his art will be an invitation to live an exotic sensorial experience.

Since the success of his debut album ***Chanting*** in 2017, he has been recognized for his sharp and daring productions. He released the sumptuous ***Rhythm of Serenity*** in 2020, then offered himself a more urban parenthesis with ***Brave New World*** project released in 2021 in collaboration with beatmaker Tamal.

In 2022 **Marcus Gad** is back with the single *Ready For Battle* which announces his new eponymous album, scheduled for March 2023. Accompanied by his band **Tribe**, he returns to a more organic reggae style while keeping a strong and conscious message.
